

All the mentors have been very valuable and have provided numerous mentorship's which has accelerated my learning.

Mitchell and Mike have been really good influences for helping me develop and move into higher leagues. Their grassroots development is so important to developing young officials and keeping them reffing despite the various challenges that arise when being a young and inexperienced official.

Wendy Scharf was my first mentor and reffed my first game with me. She was super encouraging and made sure the coaches knew that they were treat both of us with respect, something she worked hard to earn and taught me to work for, too. She was knowledgeable, professional, and kind. Thank you, Wendy!

I would like to say thank-you to wpgrefs.com...always makes sure we have the correct resources we need to become the best ref possible.

Thanks to the apsj assignors, RIC, Mentorship Coordinator...the mentors...that make apsj the best it can be!

Thanks to Josh Miko for mentoring my first game - he gave great feedback and I look up to his success.

A special thank you to my assignor Ryan Kelly and all the officials who skate in our league

Thank you Diana Phelan, you mentored me in my first game and really helped me out

Thank you APSJ. It's very easy for young officials not to want to continue after being screamed at however, APSJ's support and mentorship is very helpful to young refs and were very helpful for me.

I would like to say thank you to Mitch who always makes me feel welcome in the league and has helped me move up in levels.

TOGETHER

Thank you to Ashley Harms! He's a solid official and pleasant to be around. He also brought me ribs and quinoa for a snack! Whata guy!

Thank you to APSJ, Mike, and Ross for developing myself and 100s of other area officials - we are fortunate to have such a strong and committed group of leaders to further the development of officials.
